Professional Summary

CS & Design graduate with hands-on experience in SQL, Python, Power BI, and Excel. Skilled in data cleaning, dashboard development, and compliance reporting — with a proven ability to translate complex datasets into actionable business insights. Experienced in stakeholder reporting and cross-functional collaboration through internships and analytics projects. Targeting entry-level **Data Analyst** / **Business Analyst** / **MIS Analyst** roles.

Technical Skills

Data & Analytics: SQL (MySQL), Python (Pandas, NumPy, Matplotlib, Seaborn), Excel (Pivot Tables, VLOOKUP, Charts), Power BI, Tableau, Metabase, Google Sheets
Business Analysis: Requirement Documentation, Process Analysis, Stakeholder Reporting, Audit & Compliance, Cross-functional Collaboration
Tools: MS Office Suite, Git/GitHub, VS Code, Postman, Figma, Canva
Concepts: Data Cleaning, Dashboard Reporting, DBMS, Operational Analytics, API Validation

Experience

- Nitte (Deemed to be University)**
IQAC Assistant

Jan 2026 – Apr 2026 — Mangalore

 - Validated institutional datasets for NAAC & NIRF compliance, ensuring discrepancy-free accreditation submissions.
 - Conducted departmental data audits, correcting inconsistencies to ensure compliance with strict deadlines.
 - Maintained structured database records to optimize reporting accuracy and compliance workflows.
- Blitz**
Product Support Intern

Oct 2025 – Dec 2025 — Bangalore · Paid

 - Utilized Metabase to investigate operational anomalies and identify root causes for failed deliveries.
 - Resolved order exceptions by analyzing backend logs to identify discrepancies in user and system data.
 - Collaborated with engineering to document recurring bugs, ensuring data integrity and operational flow.
- Shwetha Initiative**
Web Design Intern (Contract)

Sep 2025 – Oct 2025 — Mangalore · Paid

 - Reconstructed a broken client site on contract, fixing faulty navigation buttons, dead links, and responsive layouts to restore complete site functionality.

Projects

- Naukri.com Job Market Analysis — India 2024**

Python, MySQL, Power BI

 - Analyzed 13,691 real job listings end-to-end to identify salary benchmarks, top hiring cities, and in-demand skills across the Indian Data Analyst market.
 - Cleaned raw data using Python (Pandas + Regex) — standardized 50+ inconsistent experience formats, extracted city strings, and parsed salary ranges into numeric columns.
 - Built interactive Power BI dashboard with slicers for role, city, experience level enabling data-driven hiring insights.
- Airbnb Full-Scale Analytics Dashboard**

MS Excel, Tableau

 - Interactive Tableau dashboard analyzing rental property listings to uncover key hospitality market trends.
 - Cleaned raw, unformatted datasets by handling nulls, transforming data types, standardizing categorical attributes.
 - Created interactive dashboards to track property pricing, location demand, and revenue metrics.
- Student Scholarship Management System**

HTML, CSS, MySQL

 - Designed a normalized relational database schema to track multi-table student application pipelines efficiently.
 - Wrote optimized SQL queries, joins, and aggregates to filter applications by eligibility rules and approval workflows.

Education

- Canara Engineering College, Mangalore**
B.E. in Computer Science and Design

Dec 2021 – Aug 2025
CGPA: **8.57**
- Canara Pre-University College, Mangalore**
PCMB (Physics, Chemistry, Mathematics, Biology)

Jun 2019 – Jul 2021
82.34%
- Canara Girls High School, Mangalore**
KSEEB (10th Standard)

Jun 2018 – May 2019
80.32%

Certifications

- Introduction to Data Analytics — Simplilearn
- Data Visualisation: Empowering Business with Effective Insights — TATA & Forage
- Data Analytics Job Simulation — Deloitte & Forage
